2/28 Laceweight Scarf

Finished Size: about 60 inches long and 8 inches wide (depends on blocking)

Yarn: One ounce of 2/28 lace weight yarn (about 430 yards per ounce)

Needles: US4 (3.5mm) needles

Gauge: not an issue

Notes on Construction: The pattern is all in chart form. Even number rows are wrong side rows. The scarf is knit in two pieces, from the ends, and then grafted together; one end from each ball. Knit symbols have been omitted from chart for ease of reading.

Chart only shows right side (odd number) rows.

All even rows (wrong side): slip the first stitch as if to purl with yarn in front; knit to end.

To Knit:

With two strands of yarn and US 4(3.5mm) needle, cable cast-on 57 stitches.

Cut the second strand. (Make sure to leave a long enough tail to weave in the ends.)

With single strand, knit 4 rows, then, follow chart.

Repeat rows 155 and 156 (inclusive) until 250 total rows have been worked or scarf is desired length.

Set aside while you work on the second tail. Make the second tail just like the first.

You can knit both ends at once:

one end from the inside of the skein; the other from the outside of the skein.

Finishing:

With wrong sides together, graft the two ends together. Weave in all ends, block.

Chart Key:

- knit
- knit 4 stitches (square represents 4 stitches)
- knit 5 stitches (square represents 5 stitches)
- wrong side row, knitted
- knit twisted - through back of the loop
- slip first stitch as if to purl, with yarn in front
- yarn over
- knit two together
- SSK or SKP, makes no difference
- slip one, knit 2 together, pass slipped stitch over
